KEY LIGHT	6
CROWN LIGHT	12
LUMINOUS	18
EXPO	20
COMBI	26

VECTA DESIGN HAS PAID SPECIAL ATTENTION TO THE DEVELOPMENT OF NEW LIGHTING SOLUTIONS FOR COMBINATION WITH STRETCH CEILINGS. LIGHT HAS THE POWER TO MAKE AN INTERIOR LOOK FRESH AND LIGHT. WITH THE SMART USE OF LIGHT IT IS POSSIBLE TO CREATE VARYING LEVELS OF ILLUMINATION AND FOCAL POINTS.

VECTA DESIGN HAS DEVELOPED A RANGE OF ORIGINAL AND UNIQUE LIGHT SYSTEMS THAT FORM THE VECTA LIGHT SOLUTIONS PRODUCT LINE. THESE SYSTEMS CAN BE USED AS THE MAIN SOURCES OF LIGHT OR TO PROVIDE CREATIVE DESIGN FEATURES.

SYSTEMS INCLUDED IN VECTA LIGHT SOLUTIONS

VECTA **KEY** LIGHT LIGHTING SYSTEM

AL 18 KEY LIGHT

VECTA KEY LIGHT - an original solution for the integration of LED lighting with stretch ceilings. The LED lighting is 30 mm wide and enables the creation of continuous glowing lines. Two different diffusers are available to provide the option of direct or scattered light.

CROWN LIGHT by Vecta Design

AL 20 CROWN LIGHT

VECTA CROWN LIGHT - a unique system featuring a 25 mm wide flat difusser that creates the effect of a stretch ceiling floating on an illuminated perimeter.

LUMINOUS

AL 21 LUMINOUS

AL 21 LUMINOUS - a special aluminium profile that has been developed by VECTA DESIGN to enable the creation of custom design LED light boxes.

EXPO

AL 22 EXPO

VECTA EXPO is a modular system featuring stretch ceiling material installed in a frame constructed from the AL 22 profile using special fixings. If required, LED lighting can be easily installed. VECTA EXPO panels can be used as illuminated or acoustic partition walls, exhibition or information stands and, by design, can be used for other applications that may be specified by clients.

COMBI

AL 23 COMBI

AL 23 COMBI was developed to enable integration of the KEY LIGHT system into gypsum board ceilings. In addition, the COMBI profile is multifunctional, as it can be used to combine gypsum board and stretch ceiling material in one room. For all installations, the COMBI system enables the creation of interior design accents with continuous light lines from the 30 mm wide LED strips.

KEYLIGHT SYSTEM COMPRISES OF ALUMINUM PROFILE AL18, LED-SOURCE AND DIFFUSOR VEC-1 OR VEC-2

LED STRIPS TECHNICAL SPECIFICATIONS

	LR-39	LR-40
Length, mm	5000	5000
Width, mm	8	8
Thickness, mm	1	1
Wavelength	6000K	4000K
LED color	cold white	neutral white
Luminous Intensity, lm/m	1700	1700
Limited voltage, V	DC 24	DC 24+-0,5
Output power, W/m	14	14

MOUNTING OF PROFILES TO THE CEILING

AL 18 profiles are fixed to the ceiling using suitable joist hangers at 50 cm centres.

VECTAKEYLIGHT

LIGHTING SYSTEM

CONNECTION OF PROFILES

VECTA KEY LIGHT system enables the creation of modern interior designs by using light accents. High quality stretch or gypsum board ceilings featuring fully integrated LED lighting will provide a unique and stylish appearance.

Continuous light lines can be achieved with this 30mm wide integrated LED lighting. With specially developed diffusers two levels of illumination are possible, direct and scattered light. VECTA KEY LIGHT can be installed to create geometric patterns.

VECTA KEY LIGHT system features an aluminum profile AL 18, an LED light source and a matt diffuser. Modern light sources such as LED are high efficiency and are long-lasting, having a life of over 50000 hours. This system can be also used for emergency lighting when connected to an appropriate power source.

NEW WAYS OF USING KEY LIGHT SYSTEM

CAP-1

CAP-1 for KEY LIGHT system has been developed by VECTA DESIGN to enable the creation of exciting ceiling designs. With CAP-1, the KEY LIGHT profile can end anywhere in the stretch ceiling.

AL 23 COMBI was developed to enable integration of the KEY LIGHT system into gypsum board ceilings.

In addition, the COMBI profile is multifunctional, as it can be used to combine gypsum board and stretch ceiling material in one room. For all installations, the COMBI system enables the creation of interior design accents with continuous light lines from the 30mm wide LED strips. Alternative LED strips are available to provide cold or neutral light (LR-39 or LR-40) and the installation is completed by the VEC-4 diffuser.
